

Governance

Sustainable Supply Chain

- Ensuring 70% of our preferred suppliers set GHG emissions reduction targets by 2027.

Customer Product Responsibility

- Working with our customers and suppliers to incorporate sustainability into product designs and lifecycle management to minimize environmental impact.

Transparency & accountability

- Providing quarterly ESG progress to the Board of Directors
- Publishing a ESG report

ESG is not a standalone programme at TechPoint. It is integrated into our business strategy, shaping how we manage risk, create value and drive sustainable growth.
